ADEN, May 9 -- ANA - The Political Committee of the friendship and cooperation treaty between the Peop le's Democratic Republicof Yemen, the Socialist People's Libyan Arab Jamahiriya and Socialist Ethiopia, condemned the criminal conspiracies faced recently by Democratic Yemen and aimed at the economic and petroleum installations and the killing of innocent citizens.

The committee declared in its joint communique issued this evening at the end of the meetings of the committee in Aden, its full support for the efforts being made by Democratic Yemen for realising Yemeni unity. The committee also affirmed its full solidarity with the just struggle of the Libyan Jamahirya against imperialism, zionism and reaction and condemned strongly the continuous military manouevres of American imperialism and its reactionary allies across its borders and the imposition of an economic blockade and bids of interference in its internal affairs.

The joint communique said that the Yemeni-Libyan-Ethiopian political co mmittee notices the inferferance of the imperialist and reactionary forces in the internal affairs of the independent countries in the area and expresses its support for t he efforts of Socialist Ethiopia to ensure its independence, unity and safety of its territories. It also declares its solidarity with and support for the Ethiopian military government and "Asmara" Statement which aims at realising unity and happiness and prosperity for the people so that it can benefit from the fruits of the popular revolution.

The communique says that the committee sees that the practical answer to confront and foil the fierce imperialist, zionist, reactionary and racist offensive against t heir peoples is to implement further measures of transformation in favour of their masses at internal level and closerness and coordination with the national andprogressive regimes and the national liberation movements in the area and with the allied socialist community.

During its meeting the Political committee reviewed the current international situation and the increase of the American imperialist activity in the area, the arms race, the spread up of fleets, the construction and expansion of imperialist military bases, the conditions in the Midle East, Africa and Latin America and other areas of the world. The following is the full text of the joint communique:-

"The Political Committee of the Treaty of Friendship and Cooperation between the People's Democratic Republio of Yemen, Socialist Ethiopia and the Socialist People's Libyan Arab Jamahirya held its first ordinary sessionin Aden from 6th to 8th May, 1982.

JOINT COMMUNIQUE - Cont'd.

"The respective delegations were led by: Comrade Salem Saleh Mohammad, CC Member of the Yemeni Socialist Party and Foreign Minister of the PDRY, Comrade Dr. Feleke Gedde Georgis, Minister of Foreign Affairs of Socialist Ethiopia and COPWE Central Committ ee member, and Brother Abdul Aati al-Obaidi, Secretary of the People's Committee of the People's Foreign Liaison Bureau of the Socialist Peop le's Libyan Arab Jamahirya.

"In the course of the session, the three delegations were received in audience by Comrade Ali Nasser Mohammad, Secretary General of the Yemeni Socialist Party, Chairman of the Presidium of the Supreme People's Council and Prime Minister of the PDRY, and briefed him on the progress made so far. Comrade Ali Nasser gave guidance to ensure the success of the work of the committee.

The Political Committee made a comprehensive assessmentof its work and that of the other committees established by the treaty. T he committee noted with profound satisfaction the progress made so far and agreedupon the adoption of a number of practical measures to ensure the consolidation and development of co ordination and joint activity between the three countires through the work of the political andother committees.

"The committee reviewed the current international situation with particular emphasis on the region and in the light of developments thaT followed its first extraordinary session held in Addis Ababa last November. It noted that United States imperialism, in conjunction and coordination with zionism and reactionary regimes in the reegion, had intensified its offensive and conspiracies against progressive states and forces through various economic pressures, power flexing manoeuvres, subversion and sabotage aimed at undermining security and stability of the region. T he aim of this imperialist machination is to strengthen and perpetuate its military and political domination over the states and peo ples of the region.

"The Committee underscored that the practical response to the vicious imperialist, zionist and racist designs lies inthe implementation of measures in favour of the broad masses at the national level and the fostering of further cooperation and coordination among themselves and closer relations with other progressive forces, national liberation movements in the region and the Socialist community.

"The committee noted that imperialism, spearheaded by the present U.S. Administration, continues to strive for the creation of axis and hot-beds of tension in all corners of the globe, step up the arms race and set up

interventionist forces, build and expand military bases and pursue a policy of provocation and aggression thereby threatening international peace and security. The sole purpose of all this is to regain its lost domination and perpetuation of its plunder of the natural resources of the peo ples of the world.

"The Committee also reviewed specific developments in the Middle East, Africa and ot her regions of the world. With regard to the Middle East the committee expressed grave concern at the escalation of Israeli aggression against the Palestinian resistance, the Lebanese national movement and the barbaric attacks against the civilian population in the occupied Arab territories and the illegal actions which aim at paving the way for annexation of the West Bank and Gaza Strip in the same way as the illegal decision to annex the Golans. The Committee considers such Israeli aggression as a manifestation of the feverish acts of imperialism, zionism and the Camp David parties which, through the imposition of the so-called self-government, aims at undermining the Palestinian cause. It further emphasises that the alleged withdrawal of Israel from Sinai and its replacement by the occupation forces of NATO and the transformation of Sinai into a launching pad for the rapid deployment forces is meant to step up their aggression upon the peop les and statesof the region.

"The committee also noted with grave concern the sinister reassignment of political and military roles within the framework of the Camp David agreement and, in particular the linking wheels of imperialism and zionism as being designed to enable it play the role of a broker for imperialist and zionist ambitions of imposing the so-called self-government and appending other Arab parties to the capitulatory settlement process.

"With regard to Africa, the committee noted with satisfaction the protracted strugle being waged by the African countries for full political and economic independence and cognicent of the inextinguishable aspirations of the African masses for liberation from the shackles of colonialism, neo= colonialism, racism and imperialism, the committee noted with deep concern the sinister plot being hat ched by imperialist quarters to go against this inexorable course of history. It further noted that the collaboration between the zionist and the facist Pretoria regime, under the overall co-ordination of int ernational imperialism, is being strengthened with the view to perpetuating its inherent policies of ransacking the natural resources of the continent.
